

Smilehouse Workspace is a packaged e-commerce software for both business-to-consumer and business-to-business solutions.

Workspace has a ready-made integration to Econet 2000. This enables building advanced and integrated e-commerce solutions quickly and easily.

Integrated e-commerce for Econet 2000

About Econet and Workspace

- Econet 2000 is an ERP and CRM software
More info: <http://www.econet.fi/english/index.htm>
- Workspace is a packaged e-commerce software for creating integrated web shops and online stores.
More info: workspace.smilehouse.com

Integrated e-commerce

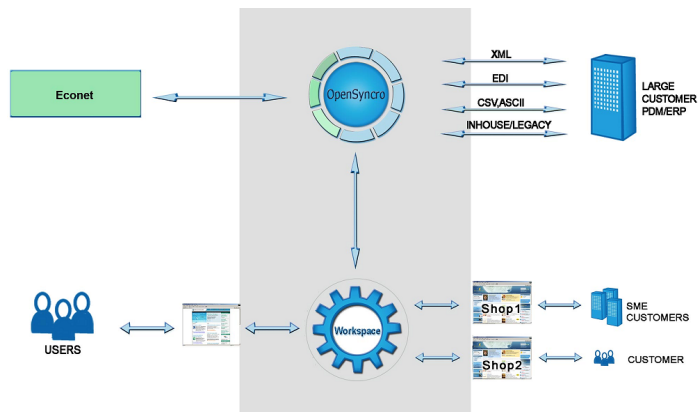

- Modern e-commerce systems are more and more frequently integrated to other IT systems.
- These systems include both merchants back-end systems (e.g. ERP, financial, warehouse) and buyers systems (PD, purchase orders)
- The goal is to enable more efficient e-commerce processes, scalability, partner integration and future growth.
- When choosing e-commerce add-on for Econet 2000, Smilehouse Workspace is the right choice.

Benefits for Econet Customers

- Workspace is a packaged e-commerce software:
 - Fast and easy implementation
 - Features for b-to-b and b-to-c
 - Tested data security
 - Technical support by Smilehouse
 - Continuous development by Smilehouse
- Ready-made integration to Econet enables:
 - Tested integration process
 - Low implementation and integration costs

Example Business Case

- Workspace is used to build a web shop serving both resellers and consumers.
- Product data can be automatically moved from Econet to Workspace. Order data can be automatically moved from Workspace to Econet.
- The integration also enables sending product data in XML/CSV format to selected business customers.

Technology behind integration

- Smilehouse Workspace and Econet 2000 are integrated using Smilehouse OpenSyncro, an integration toolkit.
- OpenSyncro has a ready-made Connector Pack that enables building batch transfer integrations to the Econet 2000 system.
- Using the Connector Pack, setting up OpenSyncro data transfer pipes between Smilehouse Workspace and Econet can be done quickly and easily.
- Both Workspace and OpenSyncro can be installed on the same server.
