

Connector Pack (v1.0) for NetBaron enables importing product and inventory data from NetBaron to Smilehouse Workspace web shop and exporting sales orders from Workspace to NetBaron as invoices.

Connector Pack for NetBaron

About NetBaron and Workspace

- NetBaron is an internet-based financial administration solution. More info: www.netbaron.fi
- Workspace is a packaged e-commerce software for creating web shops and online stores. More info: workspace.smilehouse.com

Basic Connector Pack features

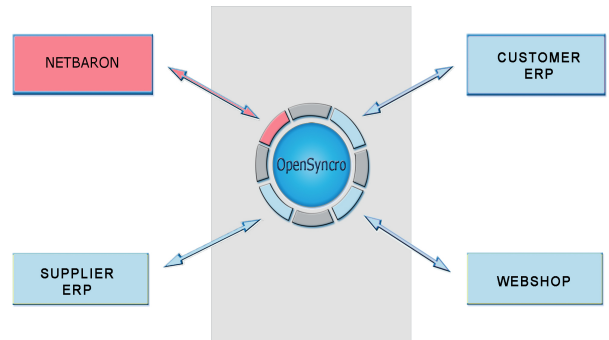

- Connector Pack enables building batch transfer integrations between NetBaron and a Workspace web shop
- The basic installation includes data transfer pipes for
 - importing product and inventory data from NetBaron to Workspace web shop
 - exporting sales orders from Workspace web shop to NetBaron as invoices
- The data transfer pipes may also be used to connect a Workspace webshop to another enterprise application which supports importing/exporting data in Workspace OpenInterface XML format.
- Using the Connector Pack, setting up OpenSyncro data transfer Pipes between Smilehouse Workspace e-commerce software and NetBaron is easy.
- Please refer to OpenSyncro documentation to find out about the other tools OpenSyncro offers for integrators.

Target group

- Companies that use NetBaron and need to build integrations to other enterprise applications.
- IT consultancies providing integration solutions to NetBaron and/or Smilehouse Workspace customers.

Business Case

- For example OpenSyncro could extract product data from suppliers systems and load this to both web shop and corporate customers ERP systems.
- Sales orders from web shop and corporate customers' systems can be loaded to NetBaron.

Configuration and deployment

- Configuration and testing of product, inventory data and sales order transfers usually take one working day altogether.
- Setting up product, inventory data and sales order integration using this Connector Pack consists of the following main tasks:
 1. Add products to NetBaron and customers to Workspace web shop
 2. Create new OpenSyncro Pipes for product (including inventory data) and sales order integrations.
 3. Configure OpenSyncro Pipe components and set up NetBaron XML data import/export: choose FTP server to use for file exchange.
 4. Schedule OpenSyncro Pipe and NetBaron import/export executions.

Features

- Load product and inventory data to from NetBaron to Workspace using FTP file transfer.
- Load sales orders from Workspace web shop to NetBaron. The orders will be converted to invoices in NetBaron.
- Load product data to Workspace from another enterprise application that supports the WS OpenInterface XML format.
- Export sales orders from Workspace to another enterprise application that supports the WS OpenInterface XML format.

Software requirements

- NetBaron 4.0.24 or later
- OpenSyncro 1.3
- Workspace 1.6 (if applicable)

Known restrictions for v1.0

- There are no known restrictions in v1.0.

Connector Pack contents and pricing

- Connector Pack for NetBaron is shipped as a ZIP archive that contains installation instructions for setting up OpenSyncro product and inventory data, and sales order transfer Pipes.
- The price for component pack is 3.000 EUR. Price includes also commercial license of OpenSyncro.
- Annual maintenance fee is 600 EUR. Maintenance includes rights to Connector Pack updates.
- VAT will be added if applicable.

How to proceed?

- NetBaron and Workspace web shop should be up and running.
- Install OpenSyncro.
- Set up an FTP server for file exchange.
- Set up OpenSyncro data transfer Pipes according to Connector Pack's instructions.
- Test the integrations.
